Thank you for patience to allow us to clarify our plan of action on Power in regards to our discussion on Wednesday.

We decided to move forward with the following steps

- 1) We will implement Facebook connect on our main login page and work with the capabilities of Facebook connect for the login to our site. Instead of a login for Facebook, users will have a button which then opens the Facebook connect window and allows them to login through Facebook connect. We will say that Facebook connects current capabilities are extremely limited and we would love the opportunity to provide a Facebook connect extension to Facebook that would allow us to enrich the experience for Facebook users. We will show that to the bus dev guys when we have a chance to meet with them.
- 2) We will delete any Facebook friend information we currently have.
- 3) We will move forward and use the Facebook features to utilize Facebook's IM, updates, and some other functionality that is already available. After we finish the implementation, we would like the opportunity to get Facebook's feedback. We have some simple innovative ideas that will follow Facebook connects system, but allow for better usability and integration. As stated earlier, we do believe that the user experience of Facebook connect is extremely limited at this stage and we hope to have an open and friendly relationship with the Facebook team to share ideas and complete solutions to allowing partners to do greater integration while addressing Facebook's concerns.
- 4) We are finishing a solution that we have already been discussing with other sites that is an extension to Facebook connect that Facebook could enable that will allow us to provide more functionality to Facebook users while protecting all the concerns of Facebook.
- 5) We do understand that there is no guarantee that Facebook will accept this solution, but our only request is that
- 6) We estimate that it will take us 2 weeks to completely finish this integration with Facebook connect and shift the user experience for our current users.
- 7) While have made the decision today to do this, we would request only one thing. We would like to meet with the business dev and guys involved on the product for thinking about solution for providing more flexibility with partners and at least present our simple code that Facebook could add that would allow us to provide a richer experience to our users and at the same time do it in a way that Facebook finds compatible with you they are envisioning their partners working with them in the future.

I believed that this email addresses everything we discussed.

The two requests we have and hope you will faciliate.

- 1) Can we get an email introduction to the correct people inside Facebook. We only ask for the introduction and

we will follow up and see their interest to meet.

2) Provide us 2 (instead of one you offered) to implement this new solution.

We did study Digsby and others and saw the changes they made in their UI to implement Facebook connect.

Please call me now and we can discuss this further. I am heading to a flight shortly.
